A strategic partnership for adult education

MARCH 2021 - TRANSNATIONAL MEETING PARTNER

On 17 and 18 March, we organized our 2nd transnational partner meeting. This meeting should have been held in Spain, in Medina del Campo (DAFO's partner city). Due to health restrictions related to Covid-19, the partners met online.

DAFO organized a virtual tour of Medina del Campo, its culture, attractions and festivals for the partners. DAFO also provided interactive entertainment so that the partners could get to know each other better.

This meeting was very fruitful: it allowed us to finalize the first part of the project: the 12 strategic activities of the BBU methodology. We also discussed the graphic design of the future training manual and the training plan for the trainers who will test the activities.

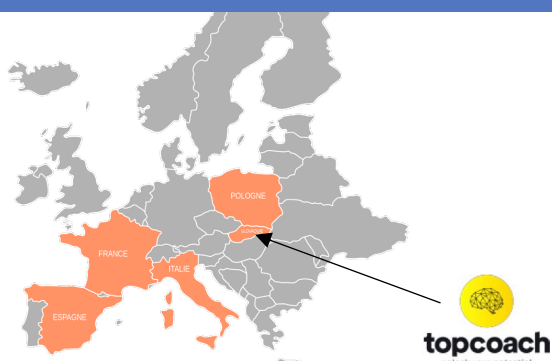

Together, we refined the activities related to the 12 competences. The next step will be to produce a manual and a training plan for the testing phase of the activities by the adult educators.

ZOOM ON TOPCOACH

Located in Bratislava, Slovakia, [Topcoach SRO](#) is a structure specialized in the field of personal development. It conducts workshops and trainings for individuals and companies.

As a partner of the consortium, Topcoach is, among other things, in charge of the graphic design of handbook.

NEETS AUDIENCE

The BBU methodology aims to improve the transversal skills of neets. A NEET (neither in employment nor in education or training) is a social classification of a certain category of inactive people. It is a person who is neither in employment nor in education or training (formal or non-formal).

This category includes 2 different groups :

- young graduates looking for a job, temporarily away from the labor market, exposed to a risk of prolonged unemployment.
- young people who have left the education system prematurely and are unable to enter the labor market due to a lack of adequate qualifications and skills.

In 2019, 16.4 % of the 20-34 year-olds in the EU were neither in employment nor in education and training (NEETs). The proportion of young people neither in employment nor in education and training in 2019 ranged from 7.3 % in Sweden to 27.8 % in Italy.
